

Max Green Multi™

DESCRIPTION

Max Green Multi™ is a complex formula that supplies essential nutrients and co-factors for improved health and well-being. Advanced Medical Labs' unique formula contains over 45 vitamins, minerals, and essential amino acids, as well as 850 mg of Green Super Foods to bring you a balanced source of complete nutrition.

MECHANISM OF ACTION

Max Green Multi™ is fortified with critical vitamins and minerals, which provide the body with the essential nutrients that it needs to function optimally.

Antioxidant power is included from a variety of sources, including green tea extract. Antioxidants are thought to play a role in the body's cell protection system by neutralizing highly reactive and unstable molecules (called free radicals) that are produced by the body. In research studies, free radicals have been shown to disrupt and tear apart vital cell structures like cell membranes. Antioxidants are known to reduce the overall number of free-radicals in the body.

PUBLISHED RESEARCH STUDIES*

Green Super Foods (Spirulina, Chlorella, Barley Grass, Wheat Grass, Alfalfa Juice Concentrate) assist in stimulating the immune system. In a recent study, wheat grass concentrate was given to healthy subjects to determine whether it decreased oxidative stress. The results showed that the supplementation with wheat grass significantly reduced the amount of oxidative stress in the cells.

ADVERSE REACTIONS

None known

RECOMMENDED USE

Take two tablets daily, preferably with meals or as directed by your health care professional.

STORAGE

Store in a cool dry place.
